

Dear Friends and Colleagues of the Romanian Section of the Regional Science Association International:

I would have liked to participate in your annual conference, which is this year held at the North University of Baia Mare. Unfortunately, I am unable to participate, but hope to be able to see you next year. I am pleased to see that you have built up an excellent programme, with many interesting topics. This is a compliment for the leadership of your organisation and for regional science in general in Romania. Romania has become a full participant in the development of regional science world-wide. And I am happy to be part of your world.

Much success,

Peter Nijkamp
